San Francisco to San Jose Section

Thank you for attending today's meeting. The purpose of the scoping process is to identify public and agency concerns, focus on the environmental documents, and define the issues that will be examined in the Project-Level Environmental Impact Report/ Environmental Impact Statement (EIR/EIS). The scoping process also helps to identify project impacts, alternatives, mitigation, measures, and environmental subject areas deserving attention. Please return comments to the California High-Speed Rail Authority (return address is on the reverse side of this form) by March 6, 2009.
